Annual Shareholder Report - December 31, 2025

Fund Overview

This annual shareholder report contains important information about Texas Capital Texas Oil Index ETF (the "Fund") for the period of January 1, 2025 to December 31, 2025. You can find additional information about the Fund at <https://www.texascapitalbank.com/etf-funds-management/oilt?&>. You can also request this information by contacting us at (844) 822-3837.

What were the Fund's costs for the last year?

(based on a hypothetical \$10,000 investment)

Fund Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Texas Capital Texas Oil Index ETF	\$34	0.35%

How did the Fund perform during the reporting period?

The Fund is managed with an index-based passive approach and attempts to achieve investment results that, before fees and expenses, correspond generally to the total return performance of the Alerian Texas Weighted Oil & Gas Index.

During the year, the Fund returned -3.17%. The Fund focuses on exploration and production ("E&P") within the state of Texas. Despite its regional E&P focus, the Fund is still susceptible to the broader global energy markets. In 2025, crude oil and natural gas markets navigated heightened geopolitical tensions, economic weakness and oversupply. The sector showed resilience despite spot crude prices returning -19.94% for the year.

Producers maintained focus on production efficiency and prioritizing high-return investments. The Permian Basin is attractive to producers due to its vast reserves and unique formations that allow for efficient low-cost drilling. The Fund saw less M&A activity last year than prior years, but still benefited from Vital Energy, Inc. being acquired at a 20% premium by Crescent Energy, Inc.

How has the Fund performed since inception?
